

IVÁN ARTURO SALAZAR ORTIZ

Systems and computing engineering - Data Engineer
(+57) 311 287 96 57 ia.salazar@uniandes.edu.co - [github](#) - [linkedin](#)

EDUCATION

Master in Universidad de Los Andes

expected graduation year 2023

- Master in data engineering ([MINE](#))
- Relevant Coursework: Big data analytics, Cloud, Machine Learning, Security and privacy.

Universidad de Los Andes

2020

- Systems and Computing Engineering.
- Thesis: Automatic Meter Reading using neural networks. (Applied in a real context/company)
- Relevant Coursework: Technology infrastructure fundamentals, Algorithm design and analysis, Transactional systems, Software architecture and design, Enterprise architecture, Business intelligence, Communications infrastructure, and Construction of mobile applications.

Universität Mannheim

2019

- Semester aboard with studies in data science (Master's class), security in IT and information security.

WORK EXPERIENCE

Wireless & Mobile

January 2019 - present

Innovation consultant

- Lead the process of bringing new technologies to different projects and contexts, focused on data science, big data and infra-structure.
- Applied my knowledge from my "Research teacher assistant" in the context of the company (Pipelines, ETLs, ML, MLops, Big data).
- Built pipelines and AI models from development to production, for electric energy fraud detection. The detection of fraud improved between 100% and 200% in different regions compared to what the company detected before.
- Main technologies: python, spark/pyspark.
- My undergraduate thesis "Automatic Meter Reading using neural networks" was a cooperative work with this company.
- Knowledge brokering to my colleagues.
- Documentation for TRL (Technology Redines level, maturity level).
- Android development with Kotlin in the first year. (Experimenting with different face recognitions tools like AWS rekognition)

Universidad de los Andes

April 2021 - Present

Research teacher assistant

- Researched, and created material for analytical solutions deployment in a master degree class ([MIAD](#), Master in Data Analytics Intelligence).
- Back end development for an analytics solution related to professors research's, promotions, publications, etc.
- Other technologies: GCP, S3, Lambda, load balancers, Heroku, Sendgrid, Redis, AWS SQS, AWS auto scaling, ec2, RDS, docker, docker-compose, Python, JavaScript, Typescript, Pyspark/Spark, Mlflow, relational and non-relational databases.

Universidad de los Andes

April 2021 - Present

Leader teacher assistant at master level

- Tutored students in a master degree class related to MLops ([MIAD](#), Master in Data Analytics Intelligence)
- Guided and graded students during the course activities.
- Assessed students doubts related to the class concepts.
- Technologies: Python, PySpark/Spark, GCP, Docker, MLFlow, relational and non-relational databases.

Universidad de los Andes

Second semester 2015

Undergraduate teacher assistant

Course: Algorithms and object-oriented programming.

- Guided students in the basics of OOP (object Oriented Programming) model in java.
- Graded students programming assignments.

LEADERSHIP ACTIVITIES

Universidad de los Andes
Research teacher assistant

Aug 2021- Dec 2022

- Led a small Team with under graduated students for a development in the university. (Full-stack, ETLs)

Universidad de los Andes
Leader Tutor in Master degree class

Aug 2021- Dec 2022

- Led a small Team of tutors and distributed activities that had to be done for the class. (Full-stack, ETLs)

TECHNICAL STRENGTHS AND INTERESTS

Programming languages : Python, TypeScript, java, JavaScript, HTML and CSS, SQL, No SQL.

Databases: Relational and non-relational databases. Mongo, postgres, mysql, mssql, DynammoDB, s3, cloud storage.

Agile Methodologies: Scrum.

Soft-Skills: Organized, Time management, Compromised, and Teamwork.

Languages: Spanish (native), English (Advanced), German (Basic).

Interests: Finance, Big data, development, infrastructure, exercise, market and technology, AI.

COURSES

- [Innovar](#), Coursera
- [Computer security: defense against the digital arts](#), Coursera

2020

2020
